

Name	Cas	Use
1,2-Dichlorobenzene	95-50-1	Precursor for agrochemicals.
1-Butanol	71-63-3	Solvent. Precursor for butyl acetate. Used in food industry.
2,6-Pyridinedicarboxylic Acid	499-83-2	Bacterial cell wall.
2-Butanol	78-92-2	Precursor for Methyl Ethyl ketone.
2-Methyl-2-Propanol	75-65-0	Solvent. Denaturant in ethanol.
Acetaminophen	103-90-2	Pharmaceutical drug.
Acetic Acid Anhydride	108-24-7	Precursor for narcotics
Acetone	67-64-1	Solvent. Precursor for narcotics. Precursor for explosives.
Acetonitrile	75-05-8	Solvent.
Acetylsalicylic acid	50-78-2	Pharmaceutical drug.
Aluminum potassium sulfate	7784-24-9	Food industry. Preparing leather.
Amethyst	14808-60-7M1	Mineral. Gem stone.
Amphetamine with tetramisole	300-62-9N1	Narcotics
Aniline	62-53-3	Precursor to many derivatives.
Ascorbic acid	50-81-7	Food industry. Nutritional supplement.
Barbital	57-44-3	Pharmaceutical drug (classified as narcotics in some regions).
Benzaldehyde	100-52-7	Aroma in food industry.
Benzamide	55-21-0	Pharmaceutical drug.
Benzene	71-43-2	Solvent. Restricted substance.
Benzonitrile	100-47-0	Solvent and precursor to many derivatives.
Benzophenone	119-61-9	Photo initiator in UV-curing reactions.
Budesonide	51333-22-3	Pharmaceutical drug.
Caffeine	58-08-2	Stimulating agent in coffee. Food industry.
Carbamazepine	298-46-4	Pharmaceutical drug.
Chloroform	67-66-3	Solvent. Restricted substance.
Chlorohexidine Diacetate	56-95-1	Anti-septic agent.
Cholesterol	57-88-5	Cosmetics.
Citric acid	5949-29-1	Acid used in food industry.
Cocaine hydrochloride	53-21-4N1	Narcotics.
Cocaine hydrochloride with lidocaine	53-21-4N2	Narcotics.
Cocaine hydrochloride with tetramisole	53-21-4N3	Narcotics.
Creatine Monohydrate	6020-87-7	Nutritional supplement.

Cyclohexane	110-82-7	Solvent. Restricted substance.
D-Fructose	57-48-7	Sugar. Food industry.
D-Glucose	5996-10-1	Sugar. Food industry.
Diclofenac sodium	15307-79-6	Pharmaceutical drug.
Di-Isopropylamine	108-18-9	Chemical weapons precursor.
Dimethyl Sulfoxide (DMSO)	67-68-5	Solvent.
EDTA	60-00-4	Used for complex binding metal ions.
Ethanol	64-17-5	Solvent.
Ethylene glycol	107-21-1	Anti-freeze agent.
Glycerol	56-81-5	Food industry. Anti-freeze agent. Cosmetics.
Hexamine	100-97-0	Precursor for explosives
Hydrogen Peroxide	7722-84-1	Precursor for explosives.
Ibuprofen	15687-27-1	Pharmaceutical drug.
Inositol	87-89-8	Sugar. Pharmaceutical industry. Cutting agent for narcotics.
Isopropanol	67-63-0	Solvent.
		Sugar. Common excipient in pharmaceutical formulations. Often
Lactose, monohydrate	64044-51-5	used as cutting agent in narcotics.
Linalyl acetate	115-95-7	Fragrance in etheric oils.
L-methionine	63-68-3	Amino acid.
Methanol	67-56-1	Solvent. Ethanol denaturant. Fuel.
Methyl Ethyl Ketone	78-93-3	Precursor for narcotics
Methyl paraben	99-76-3	Cosmetics.
Methyl Salicylate	119-36-8	Fragrance in food and liniments.
m-Nitrophenol	554-84-7	Precursor for pharmaceutical drugs.
Naphthalene	91-20-3	Moth balls.
n-Heptane	142-82-5	Non-polar solvent.
n-Hexane	110-54-3	Non-polar solvent
n-Propanol	71-23-8	Solvent. Can be used as fuel.
Nylon 6/6	32131-17-2P1	Polymer.
Pentanol	71-41-0	Solvent. Production of esters.
Petroleum Ether	8032-32-4	Solvent.
Phenol	108-95-2	Precursor for plastics.
Phosphorous Trichloride	7719-12-2	Chemical weapons precursor.

Piperidine	110-89-4	Precursor for narcotics.
P-Nitrophenol	100-02-7	Precursor for pharmaceutical drugs.
Poly(methyl methacrylate)	9011-14-7P1	Polymer.
Polybutylene Terephthalate	24968-12-5P1	Polymer.
Polycarbonate	25037-45-0P1	Polymer.
Polyethylene	9002-88-4P1	Polymer.
Polyethylene	9002-88-4P2	Polymer (with whitener).
Polyoxymethylene	9002-81-7P	Polymer.
Polypropylene	9003-07-0P1	Polymer.
Polystyrene	9003-53-6P	Polymer.
Potassium acetate	127-08-2	Salt.
Potassium Perchlorate	7778-74-1	Precursor for explosives.
Propylparaben	94-13-3	Cosmetics.
Propylene glycol	57-55-6	Anti-freeze agent. Food industry.
PVC	9002-86-2P1	Polymer.
Pyrogallol	97-66-1	Used in hair dyes. Anti-septic agent.
Salicylic acid	69-72-7	Pharmaceutical drug.
Sodium Benzoate	532-32-1	Food industry.
Sodium nitrate	7631-99-4	Precursor for explosives.
Sodium pyruvate	113-24-6	Metabolite of sugar.
Sucrose	57-50-1	Sugar. Food industry.
Sulphuric Acid	7664-93-9	Precursor for explosives. Precursor for narcotics.
Tartaric acid	87-69-4	Food industry.
Teflon	9014-83-9P1	Polymer.
Terbutaline sulfate	23031-32-5	Pharmaceutical drug.
Testosterone cypionate	58-20-8M1	Classified as doping substance (in some regions)
Testosterone enanthate	315-37-7N1	Classified as doping substance (in some regions)
Theophylline	58-55-9	Pharmaceutical drug.
Titanium Dioxide	3463-67-7	Whitener in food and polymer industry.
Toluene	108-88-3	Solvent. Restricted substance.
Tramadol hydrochloride with lactose	27203-92-5N1	Pharmaceutical drug (classified as narcotics in some regions).
Triethylene phosphate	78-40-0	Chemical weapons precursor.
Tris (hydroxymethyl) Aminomethane	77-86-1	Buffer salt.

Trizma Maleate	72200-76-1	Buffer salt.
Unleaded Gasoline 95 Octane	86290-81-5	Fuel.
Urea	57-13-6	Precursor for explosives.
Vanillin	121-33-5	Flavouring agent in food industry.
Zolpidem	82626-48-0N1	Pharmaceutical drug (classified as narcotics in some regions).
