

WIFI Connection Tool for ChemDash

WIFI Tool - connecting Indicator to ChemDash

Set up

- Once you have updated your instrument to the latest software version 4.0.6 or later, you can access the WIFI Connection Tool.
- Connect the Indicator to your computer via USB cable.
- Find and open i100_conf
- Run wifisettings.exe

 > i100_conf (D:)

wifisettings.exe	8/16/2016 10:56 AM	Application

wifisettings.exe

Choose WIFI Network

➡ Select your Network

➡ Enter password

➡ Click on Update

➡ Close the software

➡ Shut down the Indicator

The screenshot shows a window titled "Indicator Wifi Settings" with a standard Windows title bar (minimize, maximize, close buttons). Below the title bar is a green bar with the text "Network settings loaded". The main content area is titled "Available wireless networks" and contains a list of networks, each with a lock icon and a name: AWA_Guest, serstech (highlighted), AWA_Internal, serstech-guest, Combine Lund, AMEC, GWS_GUEST, GWS_DEVEL, GWS_EXTERNAL, GWS_OFFICE, and VAIO-ET66RN. Below the list is a "Network SSID" field containing "serstech". Below that is a "Password" field with 12 dots. A checkbox labeled "Show password" is below the password field. At the bottom is a large "Update" button.

WIFI connection kit

Connect using your WIFI Connection Kit

- Connect all the cables
- Start up the Indicator
- An arrow should appear in the cloud on your display

6. Connect USB Y-cable as shown
